Partnering Truth and Education to meet your business needs

Veritas Merchant Services was founded with the idea of incorporating truth and honesty into the credit card processing industry. We felt that the overall industry was taking advantage of business owners through deceit and confusion. Veritas Merchant Services is taking a unique approach allowing business owners to become educated about how the process works, in turn, giving them the opportunity to make informed decisions regarding their rates, fees, and services and thereby increasing their overall satisfaction each month.

By partnering with Veritas Merchant Services, you truly gain an ally in business. Our goal is to help you reduce your monthly overhead expenses, which is a decision you can make without reducing the level of service you offer, reducing the quality of the product, or even changing how you do business. Your customer's still receive the level of service and quality they have become accustomed to, you just pay less.

Let us set up an appointment today to review your current processing arrangements and see how Veritas Merchant Services can help you.

Full Payment Product Line
